13 July 1965

25 YEAR RE-REVIEW

MEMORANDUM FOR: Director of Training

SUBJECT: Weekly Report #17: Defense Intelligence School (DIS)  
6 July - 9 July 1965

25X1 1. Before [ ] departure on 6 July (to Colorado Springs,  
until approximately 20 July), a briefing was conducted by the Advanced  
Intelligence Course chief to show proposed changes in the sub-courses  
25X1 which constituted the pilot running. The plan was given approval by the  
Commandant; the course continues at 14 weeks' length. Copy of the pro-  
posal is attached. [ ] reported that a JCS letter of  
invitation to other agencies should be forthcoming; the likely invitational  
quota for CIA is three students.

25X1 2. [ ] and I are meeting on Wednesday afternoon,  
14 July, to coordinate our participation in the briefing-conference  
leadership sessions planned for the Senior War College students in the  
week following.

3. Informally, I've sounded out Mr. Kirkpatrick about his willing-  
ness to address the combined graduation of classes from the Attaché and  
Strategic Intelligence courses. It appears that the 30 July date  
creates a conflict in Mr. Kirkpatrick's schedule.

25X1 4. Requests for speakers from the Agency are beginning to come in  
for the courses beginning in September. [ ] had earlier proposed  
that scheduling be "integrated" before guest speakers are requested on  
common topics such as "Nature and Significance of Strategic Intelligence,"  
"National Security Structure," "Organization, Mission and Functions of  
CIA," as well as certain non-Agency topics. Initially, the Attaché  
schedule and the Advanced Intelligence schedule lack this coordination,  
so I can take no action on speaker requests yet.

25X1 5. Messrs. [ ] spoke at DIS  
25X1 courses during the week beginning 6 July, and Messrs. [ ]  
25X1 [ ] are scheduled to do so next  
25X1 week. Comments were most favorable on [ ]  
25X1 One DIA student got up during [ ] question period and spoke glowingly  
about the NIS series; he was most praiseworthy about detailed information  
and accuracy of the data.

25X1 6. I will attend a Cape Kennedy tour and demonstration with the  
25X1 [ ] IC/RC students, and a DIA analyst on 22-23 July.
